The Basic Rules for Sorting and Disposal of garbage.

1. Put garbage out by 8 o’clock on the morning of collection day.
2. Sort and dispose of garbage according to their type.
3. Confirm with the signboard at the collection site that it is the correct day for collection.
4. Keep the collection point clean. ※ If rules are not followed, garbage will not be collected.

Non-burnable garbage are collected in the 1st and 3rd or 2nd and 4th weeks of each month. There is no collection in the 5th week of the month.

In Edogawa City, we’re aiming for a 20% reduction of garbage per year. Any cooperation you may kindly extend to garbage sorting would be highly appreciated.
# How to sort plastic containers and packaging with the pula mark.

<table>

### How to dispose of

- Place in a container with a lid or the recommended bag.
- Drain food garbage well before putting them out.
- Please tie up plastic bags and dispose of in a way that prevents scattering by crows.
- Please wrap sharp edges, such as tips of bamboo skewers, with paper.
- Please soak up cooking oil with a paper or cloth to prevent splashing.
- Please remove filth from paper diapers.
- Old clothes, such as clothing, are also collecting for recycling by moving.

**Non-burnable garbage**

- Place in a container with a lid or a transparent or semitransparent bag.
- Please wrap sharp edges, such as glass and knives, in newspaper and write "DANGER".
- Please place fluorescent lamps in a paper case.
- If the contents of the spray cans, lighter and cassette cylinders remain, a dustcart will become the cause of starting a fire. Therefore, contents are certainly used up and it is made different from other non-burnable trash, and it classifies into the bag whose contents are visible, and must be put in. It is not necessary to make a hole.
- Button batteries, rechargeable batteries, has voluntarily recalled the manufacturers. Please contact below for more information.

**Burnable and non-burnable garbages**

When putting out in a bag

When putting out in a container

When putting out something difficult to place in a bag.

1Can

**Recyclable garbages**

Newspaper, magazines, corrugated cardboard and cartons

Corrugated cardboard
In about two pieces of cardboard the size of the box of tangerines (about 400 x 300 x 300mm), please put the refuse disposal tickets 10 liters.

Bottles

Cans

plastic bottles

Container packing plastic

Affix a garbage treatment ticket corresponding to the quantity of the garbage.

Affix a garbage treatment ticket for, every 10 cm height.

Affix a 10L garbage treatment ticket to each can.

Affix a 10L garbage treatment ticket to each can.

Affix a 10L garbage treatment ticket corresponding to the quantity of the garbage, for plastic garbages and recyclables.

All garbage besides "household garbages" from living in a home are considered "Business garbages".

Corporations are in principle responsible for disposal of their own business garbages (including the use of a disposal company).

The garbage of a store and an office is brought together in the range without the problem about collection of household garbage. (Seven or less 45-liter bags) It all is charge. It is purchased beforehand. The refuse disposal ticket of the regulation charge is bought. Furthermore, it is attached to the bag. Garbage is dumped.

Business garbage treatment ticket (sticker)

Purchase in convenience stores etc., displaying an "Edogawa City charged garbage treatment ticket counter" sign.

Disposing of garbage in large quantities

When you throw away the household waste in waste collection point, it is up to 3 bags of 45 liters bag at a time. It is paid when you throw away the garbage a lot with the pruning, house-moving, of Ueki. (¥ 300 -1 bag of 45 liters bag, ¥ 500 -1 bag of 70 liters bag). Please consult your cleaning office for more information.

Difficulty disposing of garbage

If you have difficulty disposing of garbage on your own, it is possible to have it collected from your home. In the following cases consult the sanitation office.

- If you are 65 years of age or older and living alone, or your family are all 65 years of age or older.
- If you are physically handicapped.

When wanting to begin group collection of garbage paper, aluminum cans and so on

Resources such as garbage paper and aluminum cans which are put out, go into "the group collection". Organizations such as neighborhood associations and student governments, kids' circles, PTA's now excess 600, in the city. To begin the group collection makes the people in the area raise recycling consciousness. There are a wide range of support systems. For more information, (5662-1689) inquire of the waste management, garbage cutting-down section.

Disposal of dead animals such as dogs and cats.

Contact the sanitation office (A fee is charged). The owner should notify the sanitation office, and the animal will be disposed of.

Dangerous / offensive smelling garbage etc.,

The following can not be collected in the city.

1. Dangerous or offensive smelling goods, such as gas containers, benzine, gasoline, paint, garbage oil gunpowder and large batteries.
2. Safety items which cause incident in their absence, such as fire extinguishers, safes and medicine.
3. Others such as cars, motorcycles, tires, earth, stones, sand, blocks, scrap wood etc.,

Earth, stone and sand

Ask the shop you purchased it at or contact a professional for disposal. If unclear, enquire with the sanitation office.

Prevention of crows scattering garbage

In each garbage dump, in the measures of prevention and taking away scattering crow and, we rent a net for a garbage dump. Please apply to cleaning the office to decide the person to manage from those who are using the dump site.
