Some important notes on application for admission (Transfer) to nursery school and after admission are outlined

Please be sure to review all items and check the appropriate

I agree to the precautions below and reinstatement pleage.

Edogawa Taro $\times \times DD/ \times MM/$ × YYYY Name of parent/guardian (signature) **Precautions** *Please read all items carefully and check the all boxes. Please be sure to submit all necessary documents for coordinating the use of nursery schools, licensed child day care centers, and community-based day care services (hereina ter referred to as "daycare facilities") by the due date. **√** If documentation is not submitted, the applicant will not be eligible for utilization adjustments. Private childcare centers, centers for early childhood education and care, and community-based childcare services (hereinafter referred to as "private childcare facilities") have unique characteristics, depending on the facility. If you are interested in enrolling your child in a nursery school, please visit the nursery school with your child or have **√** the childcare policy, etc. explained to you. 3 Some facilities have a maximum age limit for being eligible for care, and the actual period may be shorter than the preferred period. **V** In principle, private childcare facilities will conduct admissions starting from those who have it as their highest preference. (For details, see page 24 of the "Guide to Admission"). **✓** The ward childcare centers will be adjusted from the one with the highest utilization adjustment index, not according to the order of preference (5) The standards for admission-related decisions are determined by the employment status at the time of application. If you start working (except for cases of childcare leave) by the first day of the month following the month you wish for your child to enter nursery school, it will be treated as an unofficial offer of employment. V After enrollment, please re-submit an employment certificate or other documents in order to reconfirm employment and family situation.

Adjustments will be made based on the assumption that the applicant's employment and family situation at the time of application will not change after the 6 **√** child's enrollment. If your work or family situation changes prior to the month your child is enrolled, the acceptance may be cancelled or your child may be withdrawn from nursery school. If the contents of the application are not true, we may cancel the offer or decision to admit your child to the childcare facility. In addition, if you fail to have an **√** interview and medical examination by the day before the day of enrollment, or if the results of the interview and medical examination indicate that group childcare is difficult, the offer of enrollment at the childcare facility may be cancelled. If you withdraw your application or decline the offer, or if your household composition or employment situation has changed since the time of application, **√** you must notify the ward (9) Please note that if you are offered a place at a childcare facility after applying for a transfer, you will not be able to return to the childcare facility you are currently attending. **√** The hours indicated in the certification of need for childcare differ from the actual hours of care. The actual hours of care will be determined by the director of the (10) **v** facility after the admission decision is made, depending on the family's situation. The period during which a child may attend the facility for reasons of job seeking is three months from the date of enrollment. Please submit proof of employment (1) after the start of work by the 15th day of the third month. **V** If a work certificate is not submitted, the child will be dismissed from the school. The period during which a child can attend nursery school, etc. due to the mother undergoing childbirth is within a total of five months, including the month during which the baby is due and two months before and after. **V** The ward is not responsible for any delay, non-delivery, or loss of submitted documents due to communication environment or postal accidents. Please note that we **7** will not be able to confirm the arrival of your documents by phone. The requirement for continued enrollment at nursery schools, etc. is that the parent/guardian must be working, attending school, or providing nursing care for 48 hours or more per month (excluding transportation time and break time). If there is no longer a need for childcare, the child will be dismissed. **√** (5) In principle, the child will also be withdrawn from nursery school, etc. in the following cases. If the child has not attended a childcare facility for more than two months and the need for daycare is not recognized **V** If you move out of Edogawa Ward (however, if the prescribed filing procedures are followed, your child may be able to attend nursery school) If you are unable to confirm the "documents confirming the necessity of childcare" to be checked periodically (f) If you don't pay childcare fees or extended childcare fees without a valid reason, the result of admissions-related decisions may be put on hold. **√** (f) If you wish to extend the period of receiving childcare services (the hours of childcare vary depending on the classification of standard hours and reduced hours) To apply for the extended childcare services at a public nursery school, you need to submit "Extended Daycare Application Form" In principle, enrollment in daycare facilities is on a monthly basis, so ward-run extended childcare fees are also charged on a monthly basis **√** In case the child stops attending nursery school in the middle of the month due to withdrawal notification, etc., the ward-run extended childcare fee will still be charged for the full month. For extended childcare at private childcare facilities, you must apply directly to each school after receiving an admission offer. (B) This application form is valid until the end of the school year of the month in which you wish to enroll your child at the school (until March). A separate application **V** is required for enrollment from April of the following year. Pledge to return to work *If you are returning to work after childcare leave or pre/postnatal leave, please be sure to fill out this If my child is admitted, I will return to work by the first day of the month following the month of admission if I am on childcare leave, or after the end of The persor maternity leave if I am on prenatal or postnatal leave, and submit a certificate of employment within two weeks of returning to work to prove this fact. I agree that if I do not return to work by the first day of the month following the month of enrollment, or after my maternity/paternity leave ends, with the ather Moth same level of work content, hours and days as at the time of application, or if I do not submit an employment certificate within the set time period, the offer of admission will be cancelled and my child will be withdrawn from the childcare facility *If you are offered admission, you must return to work even if you have a sibling who has not been offered admission or who has not applied for admission. [For those who have not applied for childcare leave] If you have not applied for childcare leave, please check the box that indicates how your child is being taken care of. □Childcare provider □Certified childcare center □Company-led childcare center □Brought to workplace (includes telecommuting) □Grandparents □Other (If your child was not admitted to the nursery school, please check one of the following boxes (1-5) and fill in each item.) workplace that accepts extended childcare leave. ⇒ Childcare center available at workplace □ Yes □ None 2 □ Father □ Mother □ (3 Applying for childcare provider services.
